Each section covering a specific contract
(e.g., U.S. Treasury Bond Futures) includes the following:

Contract Highlights
Open, High, Low, Close Prices
Volume of Sales
Open Contracts

Introduction

The 1986 Statistical Annual has been published in three volumes. Two volumes contain volume, open interest, and price data for financial futures/options and agricultural futures/options. The third book contains market commentaries, cash prices, and other fundamental trade data. In past years, the Statistical Annual was published in one or two volumes, and the trade data was placed in the appropriate book.

Highlights

	GNMA CDR futures Chicago Board of Trade
Basic trading unit	$100,000 principal balance of GNMA 8% coupon or equivalent
Deliverable grade	Modified pass-through mortgage-backed certificates guaranteed by GNMA, based on the assumption of a 30-year certificate prepaid in the 12th year. GNMA coupons with an equivalent principal balance based on an 8% coupon yielding 7.96% at par
Delivery method	GNMA Collateralized Depositary Receipt (CDR)
Price quotation	Full points and thirty-seconds of a point
Minimum fluctuation	1/32 of a point, or $31.25 per contract
Daily price limit	96/32 ($3,000 per contract) above and below the previous day's settlement price
Last trading day	Eighth to the last business day of the delivery month
Hours of trading	8:00 a.m. to 2:00 p.m. Chicago time
Ticker symbol	M

Highlights

	Options on Treasury Bond futures **Chicago Board of Trade**
Basic trading unit	One $100,000 face value CBOT U.S. Treasury bond futures contract of a specified contract month
Description	At any time prior to expiration, the buyer of one T-bond futures option may exercise his option to assume a position in one T-bond futures contract (long if the option is a call and short if the option is a put) of a specified contract month at a strike price set when the option was bought. Upon exercise, the seller of one T-bond futures option assumes an opposite position in one T-bond futures contract (short if the option is a call and long if the option is a put) of a specified contract month at a strike price set when the option was sold.
Strike price	Trading shall be conducted with strike prices in integral multiples of two points ($2,000) per T-bond futures contract.
Premium payment	Premiums must be paid in full by the clearing member of the Clearing Corporation and by each option customer to his commission merchant when the option is bought, or within a reasonable time period thereafter.
Price quotation	Multiples of 1/64 of a $100,000 T-bond futures contract, or $15.625 rounded upward to the nearest penny
Daily price limit	Premiums cannot fluctuate more than three points above or below the prior day's settlement; limits do not apply during the option's expiration month
Exercise	The buyer of a T-bond futures option may exercise the option on any business day prior to expiration by giving notice to the Clearing Corporation by 8:00 p.m. The Clearing Corporation, through its clearing members, will then assign the notice to an option seller. The Clearing Corporation will establish a futures position with the buyer (long if the option is a call and short if the option is a put).
Last trading day	Options cease trading in the month prior to the delivery month of the underlying T-bond futures contract. Options stop trading at 12:00 noon on the last Friday preceding, by at least five business days, the first notice day for the corresponding T-bond futures contract.
Expiration	Unexercised options expire at 10 a.m. on the first Saturday following the last trading day. After the close of trading on the last day of trading, each open long option for which the exercise price is at least two points greater in the case of the put, or less in the case of the call, than the underlying futures price shall be automatically exercised, unless notice to cancel automatic exercise is given to the Clearing Corporation.
Hours of trading	8:00 a.m. to 2:00 p.m. Chicago time
Ticker symbols	CG calls PG puts

Highlights

Options on Treasury Note futures
Chicago Board of Trade

Basic trading unit	One $100,000 face value long-term Treasury note futures contract of a specified contract month
Description	The buyer or holder of a call has the right, but not the obligation, to assume a long T-note futures position prior to expiration at a specified strike or exercise price. The seller or writer of a call is obligated to assume an opposite short futures position on exercise. The buyer or holder of a put has the right, but not the obligation, to assume a short T-note futures position prior to expiration at a specified strike or exercise price. The seller or writer of a put is obligated to assume an opposite long T-note future position on exercise.
Strike price	Strike or exercise prices are set at integral multiples of two points ($2,000) per T-note futures contract.
Premium payment	Premiums must be paid in full by the clearing member to the Board of Trade Clearing Corporation and by each option customer to the commission merchant when the option is bought, or within a reasonable time period thereafter.
Price quotation	Increments of 1/64 of one percent of a $100,000 T-note futures contract, or $15.625 rounded upward to the nearest penny
Daily price limit	Premiums cannot fluctuate more than three points above or below the prior day's settlement; limits do not apply during the option's expiration month
Exercise	The buyer of a T-note futures option may exercise the option on any business day prior to expiration by giving notice to the Clearing Corporation by 8:00 p.m. The Clearing Corporation, through its clearing members, will then assign the notice to an option seller. The Clearing Corporation will establish a futures position with the buyer (long if the option is a call and short if the option is a put).
Last trading day	Options cease trading in the month prior to the delivery month of the underlying T-note futures contract. Options stop trading at 12:00 noon on the last Friday preceding, by at least five business days, the first notice day for the corresponding T-note futures contract.
Expiration	Unexercised options expire at 10 a.m. on the first Saturday following the last trading day. After the close of trading on the last day of trading, each open long option for which the exercise price is at least two points greater in the case of the put, or less in the case of the call, than the underlying futures price shall be automatically exercised, unless notice to cancel automatic exercise is given to the Clearing Corporation.
Hours of trading	8:00 a.m. to 2:00 p.m. Chicago time
Ticker symbols	TC calls TP puts

Highlights

	Municipal Bond Index futures **Chicago Board of Trade**
Basic trading unit	$1,000 times the Bond Buyer Municipal Bond Index; a price of 85-16, for example, reflects a contract price of $85,500
Price quotation	Full points and thirty-seconds of a point, e.g., 83-01 equals 83 and 1/32
Minimum fluctuation	1/32 of a full point, or $31.25 per contract
Delivery method	The futures contract is settled in cash on the last trading day; the settlement price on the last trading day will be the Bond Buyer Index value on that day
Daily price limit	96/32 ($3,000 per contract) above or below the previous day's settlement price
Last trading day	Eighth to the last business day of the delivery month
Hours of trading	8:00 a.m. to 2:00 p.m. Chicago time
Ticker symbol	MB

Highlights

Options on Silver futures
Chicago Board of Trade

Basic trading unit	One CBOT 1,000-ounce Silver futures contract of a specified contract month
Description	At any time prior to expiration, the buyer of one 1,000-ounce silver futures option may exercise the option to assume a position in one 1,000-ounce silver futures contract of a specified contract month at the option's strike price; upon exercise, the seller of the option assumes an opposite position in one silver futures contract of a specified contract month at the option's strike price.
Strike price	Trading shall be conducted with strike prices in integral multiples of 25 cents per troy ounce for strike prices below $8; however, strike price intervals will be raised to 50 cents for strike prices from $8 to $20; and $1 when strike prices are at or above $20
Premium payment	The premium must be paid in full by each retail option customer to his or her commission merchant when the option is purchased or within a reasonable time thereafter
Price quotation	Multiples of tenths of a cent per troy ounce ($1 per contract)
Daily price limit	Same as daily trading limit for 1,000-ounce silver futures, currently 50 cents per troy ounce above or below the prior day's settlement premium, equivalent to $500 per contract
Exercise	A 1,000-ounce Silver futures option may be exercised on any business day prior to expiration provided notice is given to the Board of Trade Clearing Corporation by 8:00 p.m. (Chicago time). The Board of Trade Clearing Corporation, through its clearing members, will then assign the notice to an option seller. The Board of Trade Clearing Corporation will establish a futures position for the buyer (long if the option is a call and short if the option is a put) and an opposite futures position for the seller at the strike price before the opening of trading on the following business day.
Last trading day	Options cease trading in the month prior to the futures contract delivery month. Options stop trading at 12:00 p.m. on the last Friday that precedes, by at least five business days, the first notice day for the corresponding futures contract.
Expiration	Unexercised options expire at 10 a.m. on the first Saturday following the last trading day. After the close of trading on the last day of trading, each open long option for which the exercise price is at least 50 cents per ounce greater in the case of the put, or less in the case of the call, than the underlying futures price shall be automatically exercised, unless notice to cancel automatic exercise is given to the Clearing Corporation.
Hours of trading	8:05 a.m. to 1:25 p.m. Chicago time
Ticker symbols	AC calls AP puts
